Hydrafacial Deluxe

Face: £150 Body: £200

Includes all of the Basic and Prescriptive Hydrafacial steps

Enhancements Included:

Tailored ZO Booster serum, either:

ZO Rozatrol Booster

The ZO Rozatrol Booster can treat redness and sensitivity by detoxifying the skin and replenishing hydration to support a healthy skin barrier function. It is also able to minimize inflammation and diminish the appearance of skin redness. Meanwhile, rose canina extract works to control sebum production and minimize texturizing pores.

ZO Brightalve Booster

The ZO Brightalve Booster is specifically formulated for those who exhibit an uneven skin tone and signs of hyperpigmentation. As well as restoring hydration, this booster can reduce the appearance of brown spots and prevent new pigmentation from forming. Using a skin brightening complex to block the production of pigmentation, the Brightalve Booster will help you achieve a more even complexion. Plus, glycerine will restore and replenish hydration leaving you with a supple, glowing appearance

Includes Scented Warm Mitts

Add on a ZO serum accelerator to take home: £60

Firming

Infused with breakthrough anti-aging technology ZCORE™ and Sodium-DNA, ZO® Firming Serum Accelerated is a boosted concentrate that amplifies anti-ageing. Firming Serum Accelerated supercharges the skin's rejuvenation process and works to improve the appearance of sagging and skin laxity

Rozatrol

Infused with proprietary ZO-RRS2® complex, ZO® Rozatrol® Serum Accelerated is a boosted concentrate designed specifically for red + sensitized skin, Rozatrol® Serum Accelerated helps control surface oil while providing calming and soothing benefits. It supercharges the skin's rejuvenation process when used post-treatment, elevating overall treatment results.

Brightening

Brightalive Serum Accelerated features an exclusive multi-modal brightening technology to offer a targeted treatment for pigmentation, sun damage and uneven skin tone. Formulated with niacinamide, tranexamic acid and an intelligent peptide drone.

- Promotes discolouration correction, skin tone evening, and skin brightening.
- Includes a boosted concentration of anti-inflammatory ingredients to help calm and soothe skin after treatment.
 - Intensely hydrates and restores skin barrier function for a smooth and luminous complexion

Add on skin tightening: £50

Can be added onto any of the Hydrafacial treatments

Radiofrequency uses low energy radiation to heat up the deeper layers of the skin

Benefits

Tightens skin
Stimulates collagen
Reduces and prevents fine lines & wrinkles
